

USER INSTRUCTIONS FOR RECHARGEABLE LITHIUM-ION BATTERY

SKU #9890RBLK000

WARNING

- Always allow the battery to come up to room temperature before charging.
- Lithium-ion batteries can be permanently damaged by cold-charging. To extend the life of the battery, never charge the battery in or just after using it in extreme cold conditions.
- Always store the battery in a cool, dry place
- Prior to use, check to ensure that all wires, electrical connectors, and batteries are free from damage. DO NOT USE batteries if wires, electrical connectors, and/or batteries are damaged.

CHARGING THE BATTERY

1. You can use the USB-C to USB charging cable included with your battery for charging.
2. To charge, connect the USB-C end of the cable to the middle USB-C port on the battery.
3. Connect the USB end of the cable to a USB charging source.
4. While charging, the battery life indicator on the front of the battery will illuminate.
5. When charging is complete, the battery life indicator will turn off, and the battery is ready for use.

USING THE BATTERY TO POWER THE REFRIGIWEAR HEATED PRODUCTS

1. Locate the USB-C connector (usually in a pocket).
2. Plug the USB-C connector into the USB-C port on the battery.
3. Tuck the battery back into the pocket.
4. Press and hold the Power button on the heated product to power on.
 - a. Press and release the Power button to adjust the heat level.
 - b. Press and release the Power button to turn the product off. The battery will automatically enter standby mode, but you can also turn it on/off manually by pressing the button on the side of the battery.
